

Programme

08:30 - 09:15	Registration
09:15 - 09:30	Welcome to the Annual BOOS Conference 2018 Sam Patton, British Orthopaedic Oncology Society
09:30 - 10:50	Paper Session 1: Tumours of Bone & Metastatic Disease Chair: Mr P Cool, Mr T Cosker
09:30	<i>Incidence, outcomes and prognostic factors during 25 years of treatment of chondrosarcomas</i> <i>Michiel AJ van de Sande, Department of Orthopaedic Surgery, Leiden University Medical Center</i>
09:40	<i>Prognostic factors for survival, local recurrence and distant metastasis in high-grade chondrosarcomas</i> <i>Michiel AJ van de Sande, Department of Orthopaedic Surgery, Leiden University Medical Center</i>
09:50	<i>Improved local control with pre-operative and proton beam radiotherapy regimes for central Ewing's sarcoma</i> <i>Johnathan R Lex, University of Birmingham</i>
10:00	<i>Primary synovial chondromatosis: a reassessment of malignant potential in 155 cases</i> <i>Lee Bayliss; Oxford Sarcoma Service</i>
10:10	<i>Development of a New Single Metric for the Prediction of Pathological Fractures in Patients with Metastatic Disease of the Lower Limb</i> <i>Emma Howard, Robert Jones and Agnes Hunt Orthopaedic Hospital NHS Foundation Trust</i>
10:20	<i>A comparison of outcomes in metastatic proximal femoral fractures between an MSK-oncology centre and a non tumour-specialist university hospital</i> <i>Samantha Downie, NHS Tayside</i>
10:30	<i>Risk of USS detected venous thrombotic events in patients referred for surgical management of metastatic bone disease</i> <i>Christian Gray Stephens, RNOH Stanmore</i>
10:40	<i>Predicting fracture in osteolytic proximal femoral metastases using finite element analysis</i> <i>Chloe Scott, Royal Infirmary of Edinburgh and the University of Edinburgh</i>

10:50 - 11:20	Malignant change in bone dysplasia Invited Speaker: Mr Simon Carter
11:20 - 11:35	Morning Break
11:35 - 12:45	Free Papers: Surgery Chair: Mr R Pollock, Prof L Jeys
11:35	The ITAP project – successful or not? <i>Robert Grimer, ROH</i>
11:45	The application of Computer Aided Tumour Surgery in the Sacrum; a two centre study <i>Catrin Wigley, Royal Orthopaedic Hospital, Birmingham</i>
11:55	Unicondylar endoprosthesis replacement for distal femoral tumours: a long term follow-up study <i>Alexander D. Liddle, Institute of Orthopaedics and Musculoskeletal Science, University College London</i>
12:05	Hip transposition for pelvic Ewing sarcomas: a safe and functional reconstruction combined with modern multimodal therapies <i>Tomohiro Fujiwara, The Royal Orthopaedic Hospital</i>
12:15	Outcomes after hindquarter amputation <i>Christian Gray Stephens, RNOH Stanmore & Benjamin Davies, RNOH Stanmore</i>
12:25	Osteointegration of Hydroxyapatite-coated collars in cemented massive endoprostheses following revision surgery: a 41 patient case series <i>Benjamin Davies, Royal National Orthopaedic Hospital</i>
12:35	Reconstructing lower limbs of the growing child with non-invasive extendable Endoprostheses <i>Christian Gray Stephens, RNOH Stanmore</i>
12:45 - 13:15	Invited Speaker: Prof Rodolfo Capanna, University of Pisa Introduced by Mr Simon Carter
13:15 - 14:00	Lunch - Sponsored by stryker
14:00 - 15:30	Free Papers: Soft Tissue Tumours Chair: Mr M van de Sande, Mr F Fiorenza
14:00	Dynamic prediction for patients with high-grade extremity soft tissue sarcoma <i>Michiel AJ van de Sande, Department of Orthopaedic Surgery, Leiden</i>

14:10	<p>Risk factors in Tenosynovial Giant Cell Tumours, evaluated in 17 international sarcoma centers</p> <p>Monique Mastboom, Leiden University Medical Center (LUMC), The Netherlands</p>
14:20	<p>Neither CSF1 translocation nor CSF1 over-expression predict clinical outcome and recurrence in Tenosynovial Giant Cell Tumours</p> <p>Monique Mastboom, Leiden University Medical Center (LUMC), The Netherlands</p>
14:30	<p>The patient perspective on the impact of Tenosynovial Giant Cell Tumors on daily living</p> <p>Monique Mastboom, Leiden University Medical Center (LUMC), The Netherlands & Michiel van de Sande, Leiden University Medical Center (LUMC), The Netherlands</p>
14:40	<p>Severity classification of Tenosynovial Giant Cell Tumours on MR imaging</p> <p>Monique Mastboom, Leiden University Medical Center (LUMC), The Netherlands</p>
14:50	<p>Management and outcome of acral soft tissue sarcoma</p> <p>Lee Bayliss, Nuffield Orthopaedic Centre</p>
15:00	<p>Elevated Neutrophil:Lymphocyte Ratio is associated with early relapse in pleomorphic and synovial sarcomas</p> <p>Robert U. Ashford, East Midlands Sarcoma Service</p>
15:10	<p>Soft tissue sarcomas should not be considered a single entity</p> <p>Robert U. Ashford, East Midlands Sarcoma Service</p>
15:20	<p>Pre-operative Radiotherapy in Soft Tissue Sarcomas - A national review of wound complication rates, risk factors and management</p> <p>D Cooper, St. Vincent's University Hospital, Dublin, Ireland</p>
15:30 - 15:45	Afternoon Refreshments
15:45 - 16:35	<p>Free Papers: General</p> <p>Chair: Ms L McCullough, Mr S Gupta</p>
15:45	<p>Soft Tissue Sarcoma-On-A-Chip</p> <p>Mark M.F. Siemensma, Leiden University Medical Center, Leiden</p>
15:55	<p>Sarcoma UK support line update</p> <p>Helen Stradling, Sarcoma UK</p>

16:05	<p>Osteoclasts are multinucleated cells that degrade cartilage, as well as bone</p> <p><i>Quitterie Larrouture, University of Oxford</i></p>
16:15	<p>Preclinical Testing of Trail Therapeutics for Sarcoma</p> <p><i>Zakareya Gamie, Newcastle University</i></p>
16:25	<p>The Surgical Anatomy of the Genu Articularis muscle and its relevance to sarcoma practice</p> <p><i>Matthew Williams, Oxford Sarcoma Service</i></p>
16:35 - 17:05	<p>The critical importance of the patellofemoral joint Invited Speaker: Prof Max Gibbons, Nuffield Orthopaedic Centre Introduced by Mr Paul Cool</p>
17:05 - 17:10	Prizes
17:10 - 17:40	BOOS AGM
17:40	End of conference
